

## Changing Room Protocols

Government guidance along with ECB guidance has allowed us to open the changing room for home and away teams from May 17<sup>th</sup>. This document has been produced so players are clear on the protocols to ensure we can continue in a safe manner.

We will be limited the number of players in the changing room at anyone time to 6 players. There will be a one in, one out system in place if a full capacity is reached.

| DO's   | DONT's   |
|--|--|
| Use changing room to store bags  | Use the changing rooms as a social space                         |
| Use changing room to get changed into cricket clothing and equipment   | Use changing rooms to keep warm                                  |
| Socially distance from the next person   | Use as a shelter during a rain delay                             |
| Ensure area is clear, clean, and tidy during and after use   | Exceed the maximum number of people                              |
| Regularly sanitise hands using the pumps provided  | Close windows or doors   |
| Ensure windows and doors remain open so changing room is ventilated  | Use the changing room if you start to show symptoms of Covid-19. |
| Clean shower after use (1 in, 1 out system for showers)  |  |
| Continue to spend minimal time in the dressing room when the game is going on                                  |  |
| Ensure the highest standards of safeguarding inline with the ECB Safe Hands policy which the club has adopted. |  |
